**Year of study:** First-year student - 2025-2026 Academic Year

**Major:** Bachelor of Science – Computer Information Systems

**College:** Engineering and Applied Sciences (CEAS)

---

Dear Auburn UMC family,

My name is Monica Ajak Kaman, a first-year student studying Computer Information Systems at Africa University. I would like to express my sincere gratitude for awarding me this scholarship.

I come from a family of seven children and am the fifth child. I also have several younger stepbrothers and stepsisters. My family has always encouraged me to pursue education despite the many challenges we have faced. Coming from a country affected by conflict and limited opportunities for young people, I have always been inspired to work hard and use education as a tool for change in my community. I also want to be a good example and motivate my younger siblings to follow the same path.

Your support means a lot to me and my family. It has helped me to continue my studies without financial stress, allowing me to focus more on my academic goals. I am truly grateful for this opportunity given to me, especially the chance to study in a peaceful, supportive, and encouraging environment at Africa University. This experience has helped me grow academically, in confidence, and in leadership. I am determined to use the knowledge and skills I gain here to contribute to the development of my country, especially in the area of technology and digital innovation.

In the future, I hope to give back to my community and support others just as you have supported me.

Once again, I express my deepest gratitude for your generosity and belief in my potential.

Sincerely,

Monica Ajak Kaman
